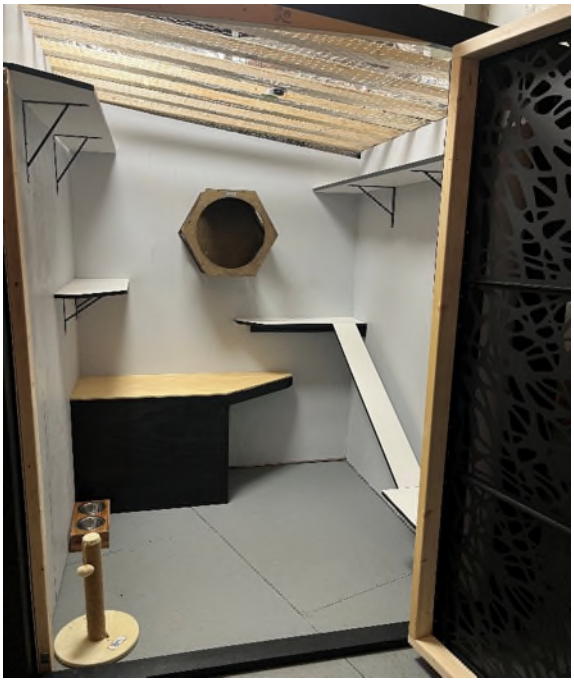
## General Information for Our Boarding Guests

Our boarding facility is cat-only; there are no dogs in our building. Additionally, our boarding area is completely separate from our cat cafe / lounge. Your cat will not be exposed to the lounge cats.

Our boarding catio kennels are approximately 5 feet wide x 5.5 feet deep x 6.5 feet tall and can comfortably accommodate up to three cats from the same household. Photos of our kennels appear below.



Our daily boarding rate is $25 per cat per night for the first 3 nights and $20 for each night thereafter. Each additional cat in the same kennel is $10 per cat per night. Please contact us for special rates for stays longer than 7 days or for kitties who just lost their human.

Kitty guests receive twice daily housekeeping services, plus 24-hour Cat TV and 20 minutes of cuddle / playtime. You will have 24-hour camera access to your kitty as long as there is not an Internet outage. Additionally, you will get at least one photo or video of your kitty twice each day (morning and evening) by text or email, but usually many more. If you'd like to talk to your kitty in real time, we offer video chats for $3 per session up to five minutes.

**NOTE: All cats MUST be current on FVRCP (also called feline distemper, feline HCP, HCPCH, or feline combo vaccine) and rabies vaccinations at check-in.**

In general, cats do not like change, so boarding is almost always a stressful experience for them. Our team will do what we can to make them as comfortable as possible. But there are a few things you can do to help them while they are here:

- We recommend bringing their regular food, because switching their diet could cause an upset stomach and unnecessary stress. Please provide dry food in a sealed plastic container and/or unopened canned food. Be sure to bring enough for their entire stay. If your cat usually gets treats or additional supplements or food, please provide those as well. We have a refrigerator, freezer, and microwave, so we can do whatever is necessary to keep your cat on their regular feeding schedule.

- We also recommend that you provide your cat's usual litter in a sealed bag or plastic container. Cat parents are encouraged to bring their cat's bed, blankets, and/or toys to make your kitty feel more at home.

- If your cat takes medication, please bring it along with the original prescription bottle with clear instructions on when and how much to administer.

*****We do not charge extra to give meds. If you can give it at home, we can usually give it here. Contact us to discuss your kitty's specific medical needs. NOTE: We are certified in animal first aid and CPR, but we do NOT provide veterinary care onsite. We also do not currently board unaltered cats (cats that are not spayed/neutered), cats with diabetes, or kittens under 6 months old.*****

**If you have any questions, please ask!**
